

Aryan college of Engineering and Management

College Name : Aryan college of Engineering and Management

University affiliation: Purbanchal University

Location : Devkota sadak, Mid - Baneshower , Kathmandu, Nepal

Contact NUmber: 01-4585146, 01-4582217

Gmail : info@thearyanschool.edu.np

Website: <https://thearyanschool.edu.np>

Level: Bachelors

Faculties : Bachelors in Information Technology, Bachelors in Computer Application, B. Tech in AI, BE in Engineering, BE Civil Engineering

principle : Er. Dev Raj joshi

Vice principle(Academic) : Mr. prakash Neupane

Vice- principle(Admin and Accountant) : Mr. Omkar Nath Gupta

Academic Director: Er. Prakash Dahal

Finance Head : Mrs. Kabita Adhikari

Account Officer : Mrs. Roji Rani Dev

Exam officer : Mrs. Dimple shrestha

Librarian : Mrs. Gita Adhikari

How can I apply for admission?

A: You can apply through the college official website or by visiting the admission office and filling out the application form.

Q: When does the admission process start?

A: Admission usually starts after the publication of +2 or equivalent exam results. Exact dates are announced on the college website.

Q: What are the eligibility criteria for admission?

A: 10+2 or diploma or equivalent in science stream with a minimum Grade c in each subject with a GPA of 2.0 in aggregate or 45% marks.

Q:What documents are required for admission?

A: your +12 documents like a transcript.

Q:Do I need original documents or photocopies?

A: Original documents are not required, photocopies are used.

What is the admission process step by step?

Q: Is there an entrance exam for admission?

A : Yes, there is an entrance exam.

What courses are available for admission?

A: The college offers undergraduate and/or graduate programs in fields such as Management, IT.

Q: Can I change my course after admission?

A: Course changes may be allowed within a limited time period, subject to approval.

Course in BE civil Engineering

First year :

- First Semester
 - Applied Mechanics I (Statics) [3 credit]
 - Chemistry - [3 credit]
 - Technical English - [2 credit]
 - Engineering Drawing I - [2 credit]
 - Engineering Mathematics I - [3 credit]
 - Civil Engineering Materials - [3 credit]
 - Workshop Technology - [1 credit]
- Second Semester
 - Engineering Drawing II - [2 credit]
 - Engineering Mathematics II - [3 credit]
 - Physics - [3 credit]
 - Fundamental of Thermodynamics - [2 credit]
 - Basic Electrical Engineering - [2 credit]
 - Applied Mechanics II (Dynamics) - [3 credit]
 - Building Technology - [3 credit]

Second Year:

- Third Semester
 - Computer Programming - [3 credit]
 - Engineering Geology - [3 credit]
 - Fluid Mechanics - [3 credit]
 - Engineering Mathematics III - [3 credit]
 - Strength of Materials - [3 credit]
 - Survey I - [3 credit]
- Fourth Semester
 - Probability & Statistics - [3 credit]
 - Survey II - [3 credit]
 - Hydraulics - [3 credit]
 - Theory of Structure I - [3 credit]

- Concrete Technology & Masonry Structure - [3 credit]
- Civil Engineering Drawing - [2 credit]
- Basic Electronics Engineering - [2 credit]

Third Year:

- Fifth Semester
 - Soil Mechanics - [3 credit]
 - Survey Camp - [2 credit]
 - Theory of Structure II - [3 credit]
 - Water Supply Engineering - [3 credit]
 - Transportation Engineering I - [3 credit]
 - Engineering Hydrology - [3 credit]
 - Research Methodology - [2 credit]
- Sixth Semester
 - Design of Steel & Timber Structure - [3 credit]
 - Foundation Engineering - [3 credit]
 - Irrigation Engineering - [3 credit]
 - Sanitary Engineering - [3 credit]
 - Transportation Engineering II - [3 credit]
 - Numerical Methods - [3 credit]
 - Civil Engineering Seminar - [1 credit]

Fourth Year:

- Seventh Semester
 - Design of Reinforced Concrete Structure - [3 credit]
 - Engineering Economics - [3 credit]
 - Applied Sociology - [2 credit]
 - Hydropower Engineering - [3 credit]
 - Estimation and Valuation - [3 credit]
 - Safety Engineering - [2 credit]
 - Elective I - [3 credit]
 - Civil Engineering Project I - [1 credit]
- Eighth Semester
 - Civil Engineering Project II - [3 credit]
 - Engineering Professional Practice - [2 credit]
 - Earthquake Engineering - [2 credit]
 - Project Management - [3 credit]
 - Elective II - [3 credit]
 - Elective III - [3 credit]
 - Internship - [2 credit]

Bachelor in Information Technology:

First year:

First Semester

- Fundamental of Information Technology
- Mathematics I
- Technical Communication
- Society and Ethics in IT
- Computer Programming in C
- Project I
- Second Semester
 - Mathematics II
 - Digital Logic
 - Discrete Structure
 - Object Oriented Programming in C++
 - Financial Management & Accounting
 - Project II

Second year:

- Third Semester
 - Numerical Methods
 - Microcontroller
 - Data Structure & Algorithm
 - Computer Network and Data Communication
 - System Analysis and Design
 - Project III
- Fourth Semester
 - Probability and Statistics
 - Computer Organization and Architecture
 - Operating System
 - Database Management System

- Programming in JAVA
- Project IV

Third year:

Fifth Semester

- Research Methodology
- Computer Graphics
- Cryptography and Network Security
- Web Technology
- Internet of Things
- Project V
- Sixth Semester
 - Artificial Intelligence
 - Management Information System
 - Data Warehousing and Data Mining
 - Simulation and Modeling
 - Software Engineering
 - Project VI

Fourth Year :

- Fifth Semester
 - Research Methodology
 - Computer Graphics
 - Cryptography and Network Security
 - Web Technology
 - Internet of Things
 - Project V
- Sixth Semester
 - Artificial Intelligence
 - Management Information System
 - Data Warehousing and Data Mining
 - Simulation and Modeling
 - Software Engineering
 - Project VI
